

Undergraduate Programs

Your Future Begins Here!

Your undergraduate college career is an exciting time of academic challenges and opportunities. No matter what your major, your course of study at Saint Katherine College begins with the "Core Integration" Foundation of Liberal Arts and Sciences Education. This two-year course will usher you into an integrated study of Liberal Arts and Sciences. It will give you the tools to think critically, express your thoughts in a precise way, examine your beliefs, and to debate the issues of our time. From there, you will choose a major, select a faculty mentor, and begin an in-depth exploration into your specific field. The typical Saint Katherine student is curious by nature and passionate about learning. Saint Katherine College will offer you the knowledge, resources, and experiences to hone your passion, natural abilities, and hard work into a productive vocation that honors you, your family and, above all, God.

"For Christ is our Life"

The educational philosophy of the College is that as Christians, we should consider every aspect of our lives as a gift from God. So, learning about the world around us is a way of learning more about the Divine Creator. Students who want to integrate their Christian Faith and education will benefit from attending Saint Katherine College, where a Christian worldview is the foundation for all academic inquiry.

to Faculty Ratio**

Learning Comes Alive

Many of our courses will have an active learning component that will allow you to learn while you work in industry or with non-profit organizations, while doing research in the lab, or in service to others through local and global charitable organizations. We believe that knowledge gained in the

Service Learning

We maintain active partnerships with local organizations such as Project Mexico/Saint Innocent Orphanage and FOCUS San Diego (Fellowship of Orthodox Christians United to Serve) which provides Food, Occupational assistance, Clothing, Understanding and Spiritual connections to the homeless and working poor in our midst. We are also an institutional member of Campus Compact, a nationwide organization of colleges and universities dedicated to promoting community service in higher education.

classroom coupled with practical application creates an optimal, relevant educational experience in which learning comes alive. Our faculty and staff will help you explore many

Research

Imagine conducting research in our chemistry lab with an expert in the field—or working on a literary composition with a well-known author, to be published in the Saint Katherine Review or other publication!

Saint Katherine College offers unique research opportunities in every field, in a collaborative mentor-student environment. Learning comes alive when inquiry meets action.

ways in which to be actively engaged in your education.

Internships

Internships give classroom learning hands and feet. In line with our commitment to provide an authentic and holistic learning environment, we encourage and assist Saint Katherine College students in pursuing internships in many disciplines including government, business, biotechnology, and medical research.

Join a Community of Scholars

Saint Katherine College is a Community of Scholars with diverse research interests and backgrounds, who are making an impact in their respective fields. Here is a sampling of their interests:

Frank Papatheofanis, MD, PhD [Public Policy Studies](#)

Dr. Papatheofanis brings a wealth of experience and knowledge in the area of public policy studies involving health care and technology. He has published widely in health technology assessment, cost analysis, and policy issues involving technology innovation.

Eve Tibbs, PhD [Theology](#)

Dr. Tibbs' research interests include the Doctrine of the Holy Trinity, Ecclesiology, Theological Anthropology, and comparative Christian Theology. She is currently serving as the Chair of the Eastern Orthodox Studies Group of the American Academy of Religion.

Kay Harkins, MFA [English Language and Composition](#)

Professor Harkins has committed her career to the nurturing and development of writers as artists, thinkers, and seekers of the Kingdom. Her research interests lie both in the intersection of narrative and poetic image, as well as in examining the ways in which we learn and pay attention in a world in which communication is becoming more accelerated and frag-

Financial Aid

We are committed to ensuring that cost is not a barrier to studying at Saint Katherine College. We offer a variety of need- and merit-based financial aid to help students cover their college expenses. Scholarships are considered gift aid that does not have to be repaid, and they are awarded by the College and outside agencies. Your financial aid may include a combination of scholarships, loans, and work study opportunities. This commitment to helping you and your family afford Saint Katherine College is an important part of what makes the College such a great value and meaningful educational investment.

Twelve Majors - Unlimited Combinations!

We want you to follow where your curiosity leads! We want you to explore many ways to learn! Besides the twelve majors listed below, we encourage you to create a custom interdisciplinary major that suits your own particular interests. You may even wish to create a bridge between the Liberal Arts and Sciences, because this is the real meaning of an Integrated Curriculum. Every student will have direct contact with experts in their field of study, and every full-time faculty member has earned the highest academic credentials possible in his or her field.

Saint Katherine College offers BA/BS Degree Programs in:

History

Music

95% of the faculty have earned a PhD or the highest degree possible in their respective fields.

Location. Location. Location.

Saint Katherine College's classrooms, residential townhomes, and recreational facilities are located less than a mile from the Pacific Ocean in the city of Encinitas, in North San Diego County, California. Stores, restaurants, and recreational facilities are within easy walking distance and all the cultural resources of San Diego are minutes away.

Moonlight Beach, Encinitas, CA

The Important Eight Hours

In each twenty-four hour day, the typical college student will spend eight hours sleeping and about that same amount of time in the classroom and studying or doing research. That leaves eight hours! We believe that an important question you should ask yourself when making the decision about where to spend the next four years, is: **How do I want to spend the remaining eight hours of my day?** If you want to spend those eight hours with like-minded peers and mentors who will build you up and support you, then Saint Katherine College is the place for you. You will be encouraged to learn, to explore, to become a better person—a transformed person—equipped to dynamically serve God in the world.

An Orthodox Christian College

Students from all faith traditions are welcome to attend Saint Katherine College. The College is founded upon the teachings and theology of Orthodox Christianity, dating back to Jesus Christ and His Apostles. Each student is required to take "Fundamentals of Orthodox Theology" during his or her first year at Saint Katherine College. The entire school community—faculty, staff and students—gathers weekly in the chapel for prayer services, a guest speaker, and lunch. Students are encouraged to attend worship services and become involved in local faith communities of their choice.
